

**WHAT IS**

# SafeCare<sup>®</sup> Colorado?

**Kempe has partnered with the Colorado Department of Human Services and providers across the state to connect at-risk families to a parent support program called SafeCare<sup>®</sup> Colorado.**

This evidence-based prevention program offers proactive, in-home, voluntary services that support at-risk families in gaining skills to provide a safe home, address child health needs, and engage in positive interactions with their children ages 0 to 5- years-old. The services are delivered in the family's home by trained professionals on a weekly basis. Families typically engage with SafeCare<sup>®</sup> Colorado for an average of four to six months.

The Kempe Center's role in SafeCare<sup>®</sup> Colorado includes implementation support, home visitor training, ongoing coaching, community marketing, and human services outreach, plus continuously evaluating feedback to improve program delivery.
